

ELECTROMAG

ultra-quiet high-speed motors

Who we are

Electromag SA, headquartered in Ecublens, Switzerland, is a leading expert in the development and manufacturing of brushless DC motors for demanding applications up to 300 W. One of the hallmark features of Electromag motors is their quietness and low vibration level for speeds up to 100'000 rpm. Renowned for their reliability, Electromag motors offer highest efficiency, in particular thanks to a patented winding technology.

Key figures:

- Company founded in 2003
- Over 30 employees
- More than 2 million motors sold
- Over 200 configurations developed
- ISO9001 and ISO13485 certified

"We are proud to have among our partners the global leaders of the healthcare and manufacturing industry who rely on our cutting-edge solutions to help them be at the forefront."

Vincent Comte
CEO and founder of Electromag SA

What we offer

OEM solutions

- Tailor made solutions based on existing product platforms as well as new product development.
- Optimized design to deliver maximal power density within a given envelope and working range.
- Customized electrical and mechanical interfaces.

From design to series production

- Seamless service from concept, through development and into series production.
- Final assembly and inspection controlled and operated in Switzerland on leading-edge automated production lines.

Responsiveness

- Solutions for design engineers to reduce development cycles and time-to-market.
- Effective processes, simulation and rapid prototyping tools.
- Responsive network of qualified partners.

Research and innovation

- Design and development of unique innovative solutions.
- Investments in research projects in cooperation with leading Swiss universities.

Applications

Ventilation

- Intensive care
- Transport
- Ventilation therapy
- Home care (CPAP, BiPAP)

Medical hand tools

- Implantology
- Endodontics
- Orthopedics, surgery
- Podiatry

Industry

- Power tools
- Micromachining
- CAD/CAM
- Laboratory
